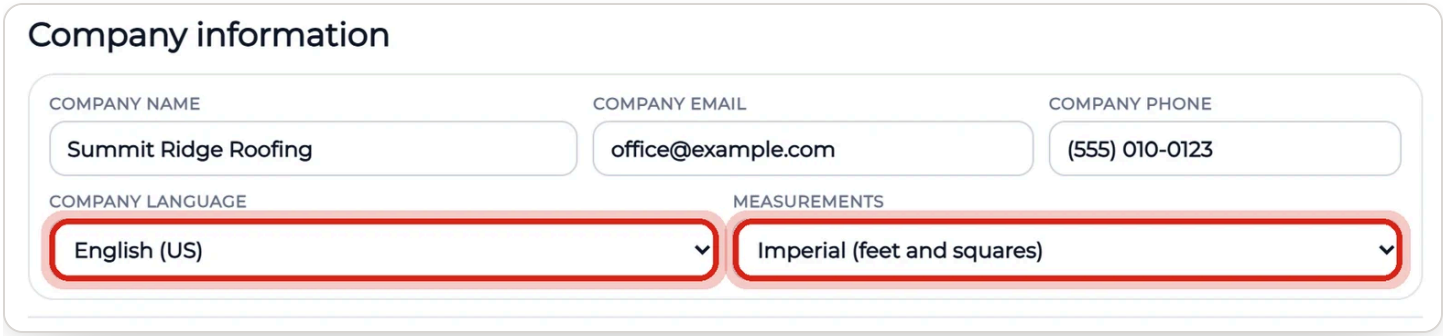
Set your language and measurement system

Choose the language and units for your reports and workspace, and how reports write roof pitch.

Change your language and units

1. Click the gear icon at the bottom of the left sidebar. Settings opens on **Company**.
2. Under **Company information**, choose your **Company language** and **Measurements**.



Changes apply to reports you order from now on. Each report keeps the language and units it was ordered with.

Company language

Your company language sets the language of your reports and your workspace. Choose from:

English (US)
English (UK)
Português (Brasil)
Español (España)
Français
Italiano
Ελληνικά
Deutsch
Dansk
Polski
Čeština
Nederlands
Norsk (bokmål)
Svenska
Lietuvių
Suomi
日本語

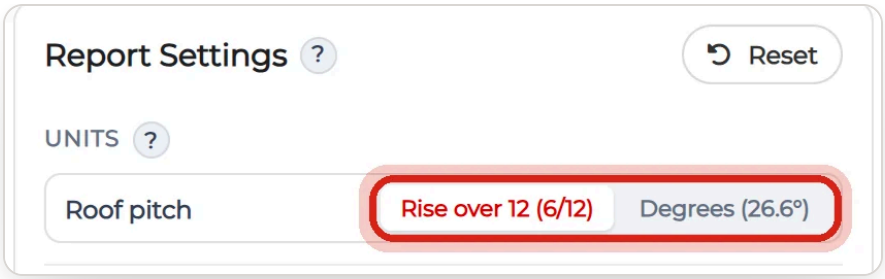
English (UK) also uses UK spelling in reports, such as colour, metre and storey.

Measurements

Option	Reports show
Imperial (feet and squares)	Feet, square feet and roofing squares
Metric (metres and square metres)	Metres and square metres, with millimetres and litres where needed

Roof pitch

1. Click the gear icon at the bottom of the left sidebar.
2. Choose **Reports**.
3. Under **Units**, choose **Rise over 12 (6/12)** or **Degrees (26.6°)**.



By default, metric companies see degrees and imperial companies see rise over 12.

Questions

Will changing units convert my old reports?

No. Each report keeps the units it was ordered with. New orders use your new settings.

Where did the roof pitch setting go?

Roof pitch is now under the gear icon, then Reports, in the Units section.
