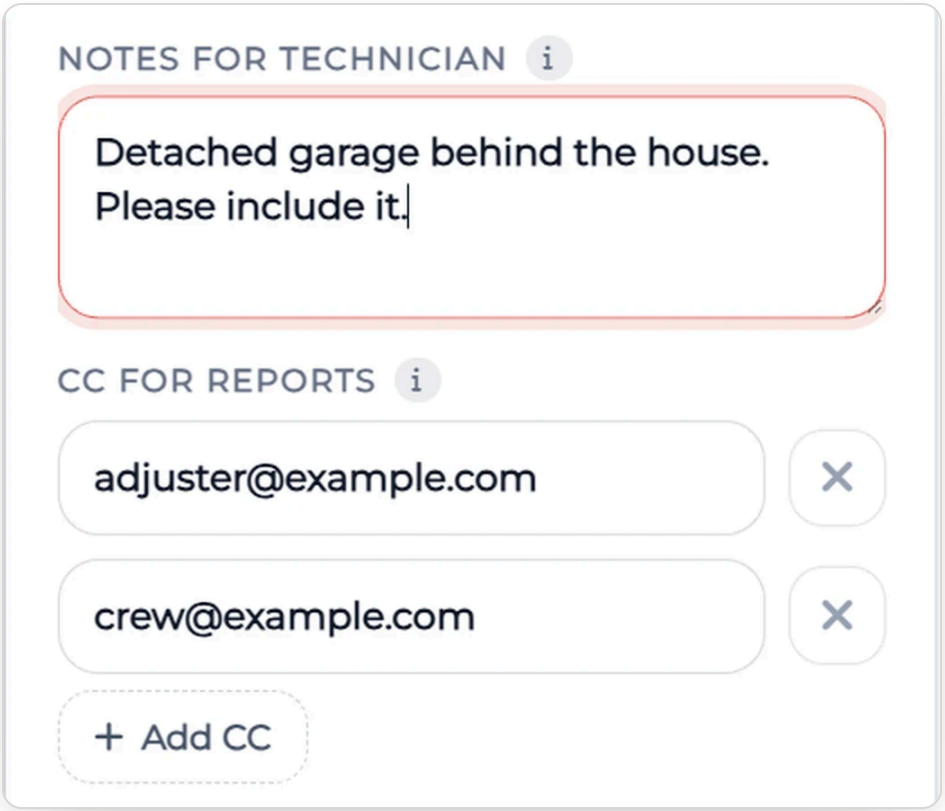
Add notes for our technicians

Add a note

After you confirm your pins, type instructions in **Notes for Technician**. The measurement team preparing your report reads them.



What to include

- Which buildings to measure or leave out, such as a detached garage or a shed
- Recent additions or changes the imagery may not show yet
- Anything unusual, like a steep slope, a shared wall or trees covering part of the roof
- On Full Exterior orders, details your footage can't explain

Questions

Is a note required?

No. Add one only when there's something the measurement team should know.
